Summary

Highly motivated software engineer with 5+ years of experience in developing scalable web applications and working with cross-functional teams to deliver high-quality software. Skilled in Python, FastAPI, and cloud technologies like AWS.

Skills

Languages: Python, JavaScript, C++, HTML/CSS

Frameworks: FastAPI, Django, Flask, React.js

Databases: PostgreSQL, MongoDB, Redis

Tools: Git, Docker, Jenkins, Kubernetes

Cloud: AWS (EC2, S3, Lambda), Azure, GCP

Experience

Software Engineer

January 2020 - Present

TechCorp Inc.

Developed and maintained web applications using FastAPI and React.js. Led a team of 5 developers and contributed to CI/CD pipeline setup using Docker and Jenkins.

Backend Developer

June 2017 - December 2019

CodeBase Solutions

Worked on building and scaling RESTful APIs using Python and Flask. Improved application performance by optimizing database queries.

Education

B.S. in Computer Science

2013 - 2017

XYZ University

Graduated with honors. Focus on software engineering, data structures, and algorithms.

Projects

Real-time Chat Application

Developed a scalable chat application using FastAPI and WebSockets with Redis as the message broker. Deployed on AWS using Docker containers.

E-commerce Platform

Built a full-stack e-commerce web application using Django, React.js, and PostgreSQL. Implemented payment gateway integration and user authentication.

Certifications

AWS Certified Solutions Architect – Associate

Docker Certified Associate

Certified Kubernetes Administrator (CKA)
